ENGINEERING TECHNOLOGY INTO SOLUTIONS

Solutions to the challenges facing the industrial market space require collaboration between customer and supplier. To provide local engineer-to-engineer communication and support, C&K has design centers located in Newton, MA (USA), Dole France, and Huizhou China. In order to develop robust product designs and expedite time to market, C&K leverages design and analysis tools such as solid modeling CAD systems, FEA and dynamic motion software, mold flow analysis, 3D printing & SLA, X-ray, SEM/FTIR, thermal imaging, force testing, and sound analysis chambers.

MANUFACTURING TECHNOLOGY INTO SOLUTIONS

C&K has been providing innovative solutions to our customers for over 50 years, using our extensive industry and applications knowledge and the latest development and manufacturing techniques to solve the most difficult design challenges and provide customer and application specific solutions. Our manufacturing locations are ISO 9001 and TS16949 certified. To ensure quality, reliability, and long cycle life, as well as meet design to cost objectives, C&K maintains internal control of key manufacturing processes such as stamping, precision molding, plating, and high speed automatic assembly.

Requirements for residential and commercial lighting systems need to incorporate a combination of comfort, safety, and energy efficiency. The switches used in these applications are required to function reliably for many years, must be aesthetically pleasing to the user, and may need to operate under challenging conditions. C&K's lighting portfolio offers a variety of switches tailored to meet the requirements of the lighting industry.

In addition to our standard products, we can customize a switch to accommodate virtually any customer request.
