Please visit www.ckswitches.com to view C&K's full product offering and list of partners and distributors. If you need any additional information or have any question, please contact your local customer representative.
High performance test & measurement equipment plays a critical role in a number of industries such as manufacturing, telecom/datacom, utility, automotive, and medical. Whether they are used in a lab environment, an auto repair shop, or a construction site, these products need to perform reliably under challenging conditions. The switches used to power, program, and operate these devices must be designed to perform at the same level.

C&K products are among the highest performing switches in the world and were designed with these types of applications in mind. In addition to our standard portfolio, we can customize any switch to meet the most demanding requirements of our customers.

### SWITCH SOLUTIONS FOR TEST & MEASUREMENT APPLICATIONS — PRODUCTS

- **BENCHTOP TEST EQUIPMENT**
  - Chemical Analysis Equipment
  - Function Generator
  - Digital Height Gage
  - Oscilloscope
  - Measuring Machines
  - Sound Level Meter
  - Battery Test Equipment
  - Gas Tester / Leak Detectors
  - Current Tester / Clamp Meter
  - Cable Insulation Tester
  - Digital Multimeter
  - Automotive Diagnostic Tester
  - Lux / Light Meter
  - Thermal Imaging Camera
  - Network Test Equipment
  - Development Boards (FPGA, etc)
  - Pressure Gage / Transmitter
  - Flow Gage / Transmitter
  - Surveying Equipment

- **PORTABLE TEST**
  - Mass Spectrometry / Gas Chromatography
  - Oscilloscopes
  - Digital Multimeters
  - Automotive Diagnostic Testers
  - Lux / Light Meters
  - Thermal Imaging Cameras
  - Network Test Equipment
  - Development Boards (FPGA, etc)
  - Pressure Gage / Transmitters
  - Flow Gage / Transmitters
  - Surveying Equipment

- **OTHER**
  - Mass Spectrometry / Gas Chromatography
  - Oscilloscopes
  - Digital Multimeters
  - Automotive Diagnostic Testers
  - Lux / Light Meters
  - Thermal Imaging Cameras
  - Network Test Equipment
  - Development Boards (FPGA, etc)
  - Pressure Gage / Transmitters
  - Flow Gage / Transmitters
  - Surveying Equipment
